A "NEW" APPROACH TO FLOWER ARRANGING

Vi Brueckner (Mrs. Philip) is no stranger to garden enthusiasts and flower arranging. She is well trained and prepared as an instructor. She is a Nationally accredited Flower Show judge, Flower Show Chairman of California Garden Clubs and chairman of National Judges Council of National Council of State Garden Clubs. As a member of the Board of Trustees of the Foundation she has served on numerous committees, and for the past several years, has lectured and conducted flower arranging classes at the Arboretum and to other groups.

This year Vi has created a new approach to flower arranging for those who have had previous instruction, which will include answers to the following:

What is the difference between modern and abstract?
What is free form and free style?
How does one design in an enclosed space?
What does luminosity in design mean?
How can we bring "Ecology" in our arranging?
What is a "Contrived" container?
How does color influence design?
What does it take to win "Blue" ribbons in a Flower Show?
How can moods and personal feelings influence an arranger?
How does one interpret a schedule of an advanced Flower Show?

All these questions and more will be covered in the eight workshop sessions to be given at the Arboretum in Arcadia. Class schedules are as follows:

All classes held on Tuesdays in the Lecture Hall
